I am a passionate software developer with skills in programming and problem-solving. I have experience in languages such as Python and JavaScript, and I am always interested in learning new technologies and approaches. I am rigorous in my work and like to maintain high standards of quality in my code.

EXPERIENCE

Holberton Talent Hub   Jan 2023 - Feb 2023
Coderise

The Holberton Talent Hub application is a talent search platform specifically designed for recruiters. It offers a database of candidate profiles that can be filtered by skills, experience, location, among other relevant criteria. Recruiters can also post job offers and directly contact candidates through the application.
